Poster Presentation Data Instruction

Content

- ① Data Format
- ② Data Preparation
- ③ Saving Data

① Data Format

**This registration system accepts the following data
Please choose the format and create the data.**

1.PowerPoint or PDF

- Data can be registered in PowerPoint format(extension .pptx) or PDF.
- Recommended version: Windows PowerPoint 2019 / 365
 - *Older versions and Mac versions can also be registered, but they may be garbled.
 - *In such cases, please contact us using the inquiry form after registering your data.
- In case of PDF, the font smoothing function may not be reflected, and the text may appear rough.
 - *If you are using software other than PowerPoint (e.g. Keynote), “2. Others” instead of “1. PowerPoint or PDF” for the original data before exploring it to PDF, and then upload the file.
- Size is limited to 2GB. If you exceed the limit, please contact the Technical Support.
- Slides that are set to be hidden may be registered. Please delete those slides before registering.

2.Others (Not applicable to 1.)

- If Format 1 does not apply, please register using the Format 2.
 - Please contact Technical Support with details of what kind of data you register.

② Data Preparation

The capacity of data size should be defined as “2GB or less”.

(1) Open the “Poster Presentation Template.pptx” directly below this instruction.

The image shows a screenshot of a PowerPoint presentation with a slide titled "Poster Presentation Template.pptx". The slide is divided into two main sections, labeled 1 and 2. Section 1 is a white area containing a template for a poster abstract. Section 2 is a sample poster with a colorful background and text. Four numbered callouts (1, 2, 3, 4) point to specific parts of the slide:

- ① Your abstract number**: Points to the "P000" text in the top left corner of the white area.
- ② The title of the abstract, affiliation, and name. Co-authors may be entered.**: Points to the "Title 1234567890", "Institution Department of XXX, XXXXX University", and "Your Name ●●● ●●●" text in the top right corner of the white area.
- ③ Template description. Please delete when creating your poster.**: Points to the text "This is a template. Please edit the abstract number, title, institution, and your name. Please make your poster in the white area. Please feel free to change the background color of the white part." in the white area.
- ④ This is a Sample poster. Please use as a reference for font and slide size.**: Points to the sample poster in section 2, which includes a "SAMPLE" watermark and text like "Abc 80Pts.", "Abc 100Pts.", "Abc 120Pts.", "Abc 140Pts.", "Abc 160Pts.", and "Abc 180Pts.".

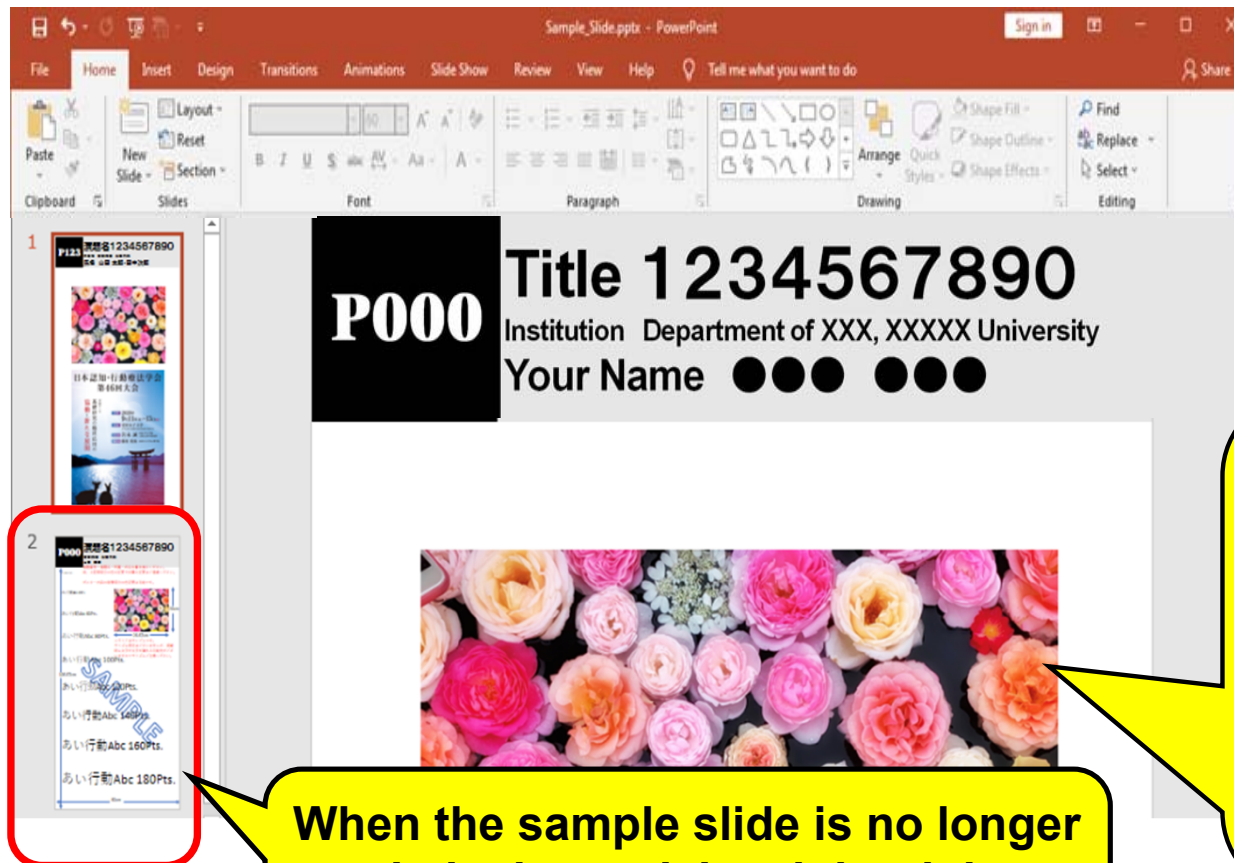

② Data Preparation

(2) Create poster data.

If slides are to be pasted as images, **PNG format** is the standard.

The background color can be changed.

(Right-click on the poster area → click “Format Background”)

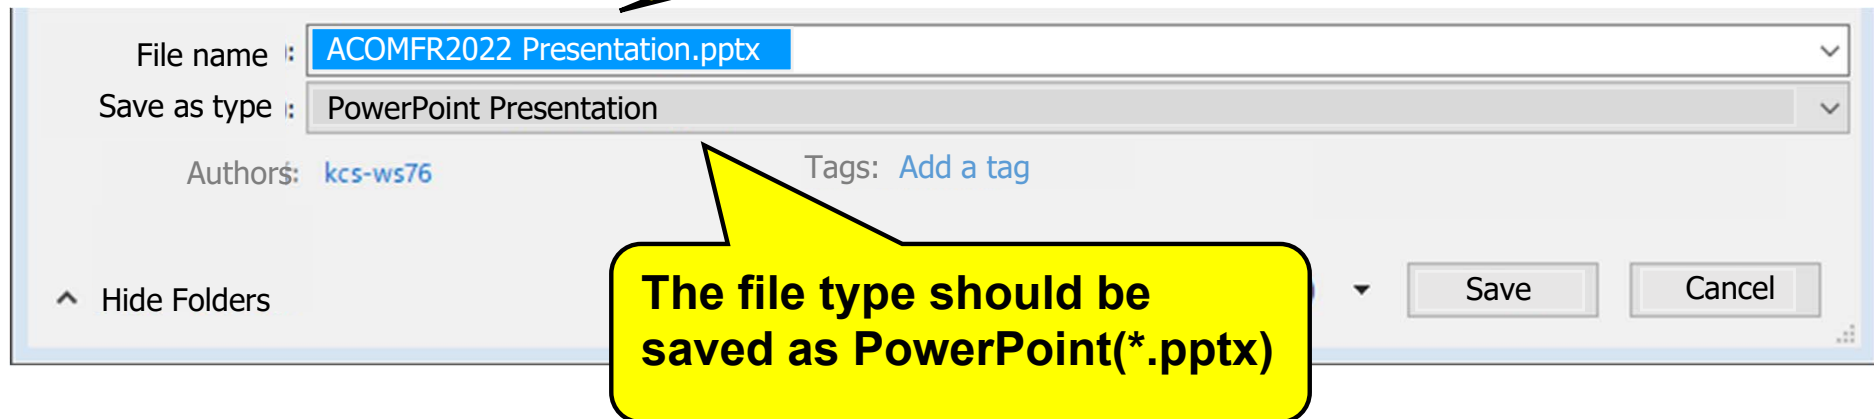

If you use the content created on the slides as a poster in this manner, please paste them one at a time in **PNG format**. Otherwise, the images and text will be smashed and may not be legible.

When the sample slide is no longer needed, please delete it by right-clicking and select “Delete Slide”.

③ Saving the data

No particular file name is specified.

***If saving .pdf format, the font smoothing feature will not be reflected, and text may appear rough.**

Upload Information

Upload Period :
April 28 (Thu.) noon ~ May 27 (Fri.) noon (JST)
